RE: Applications for CERCLA and non-CERCLA earthworking activities

Dear Mr. Nininger:

The Colorado Air Pollution Control Division has received and logged in your construction permit application for the above referenced source. The CERCLA activities have been assigned APEN number 04JE1038. The non-CERCLA activities have been assigned permit number 04JE1063.

If you should have any questions concerning the status of your application, please call me at (303)-692-3168. When calling it would be helpful if you can reference the permit number listed above.

The next step in processing your application is to determine if all the information we need is contained in your application. If so, we will begin our preliminary engineering analysis. If information is missing, I will contact you in the near future to obtain the needed material.

State law requires that the Division determine the completeness of an application within 60 days of receipt. If you do not hear from the Division by September 21, 2004 and October 5, 2004 respectively, you can assume that your applications are complete.

Sincerely,

R K Hancock III
Public Health Engineer
Stationary Sources Program
Air Pollution Control Division
